Overview

A Renaissance illuminated-manuscript editorial site on Leonardo da Vinci: artworks, inventions, a biography timeline and his legacy - built with exceptional design craft.

Key Features & Technical Highlights

- Large curated static dataset (50+ records) with deterministic slug derivation.
- Public-domain Wikimedia imagery via Special:FilePath.
- Bespoke visual effects: gold leaf, parchment textures, drop caps, Ken Burns, cursor glow, skeleton loaders.

Engineering Evidence & Metrics

- Live at art.asadbe.uz; sophisticated, distinctive design system.
- Content-engineering depth (curated dataset + image resolution strategy).

Why It Matters (application / interview talking points)

- Standout for visual design craft and content engineering - distinctive, not templated.
