Overview

Enter ingredients and an LLM returns recipes, behind a polished marketing landing page.

Key Features & Technical Highlights

- Real /api/generate-recipe route calling Groq with primary + backup keys and model fallback.
- Trilingual prompts; ingredient-match scoring; saved-recipes and detail pages.
- Graceful fallback to a large predefined-recipe set when no API key is present.

Engineering Evidence & Metrics

- Real LLM integration with resilient key/model fallback; CASE_STUDY, DEPLOYMENT and PLANNING docs.

Why It Matters (application / interview talking points)

- Good applied-AI product with production-minded resilience (fallback chains).
