| Domain        | Client marketing site                                                          |
| Stack         | React 19, Vite, Tailwind v3, Framer Motion, react-i18next, react-router, sharp |
| Status        | Near-production - ~80% complete; built                                         |
| Live / Deploy | Deployed client site                                                           |

## Overview

A gothic-styled marketing site for a real tattoo studio: home, works gallery, prices, about, contact, privacy and terms - trilingual (RU/EN/UZ).

## Key Features & Technical Highlights

- Real studio portfolio (~27 works) with optimised webp+jpg pairs generated via a sharp script.
- URL-based language routing across RU/EN/UZ.
- Telegram contact integration; vercel.json; production dist/ built.

## Engineering Evidence & Metrics

- Real client deliverable with a built production bundle.
- Image optimisation pipeline (sharp) for performance.

## Why It Matters (application / interview talking points)

- Evidence of shipping for a real client with real content and a performance-conscious asset pipeline.
